Uppsala Construction Consolidation Center: How to reduce traffic to building areas?

Elin Skogens, Uppsala municipality

ECOMM

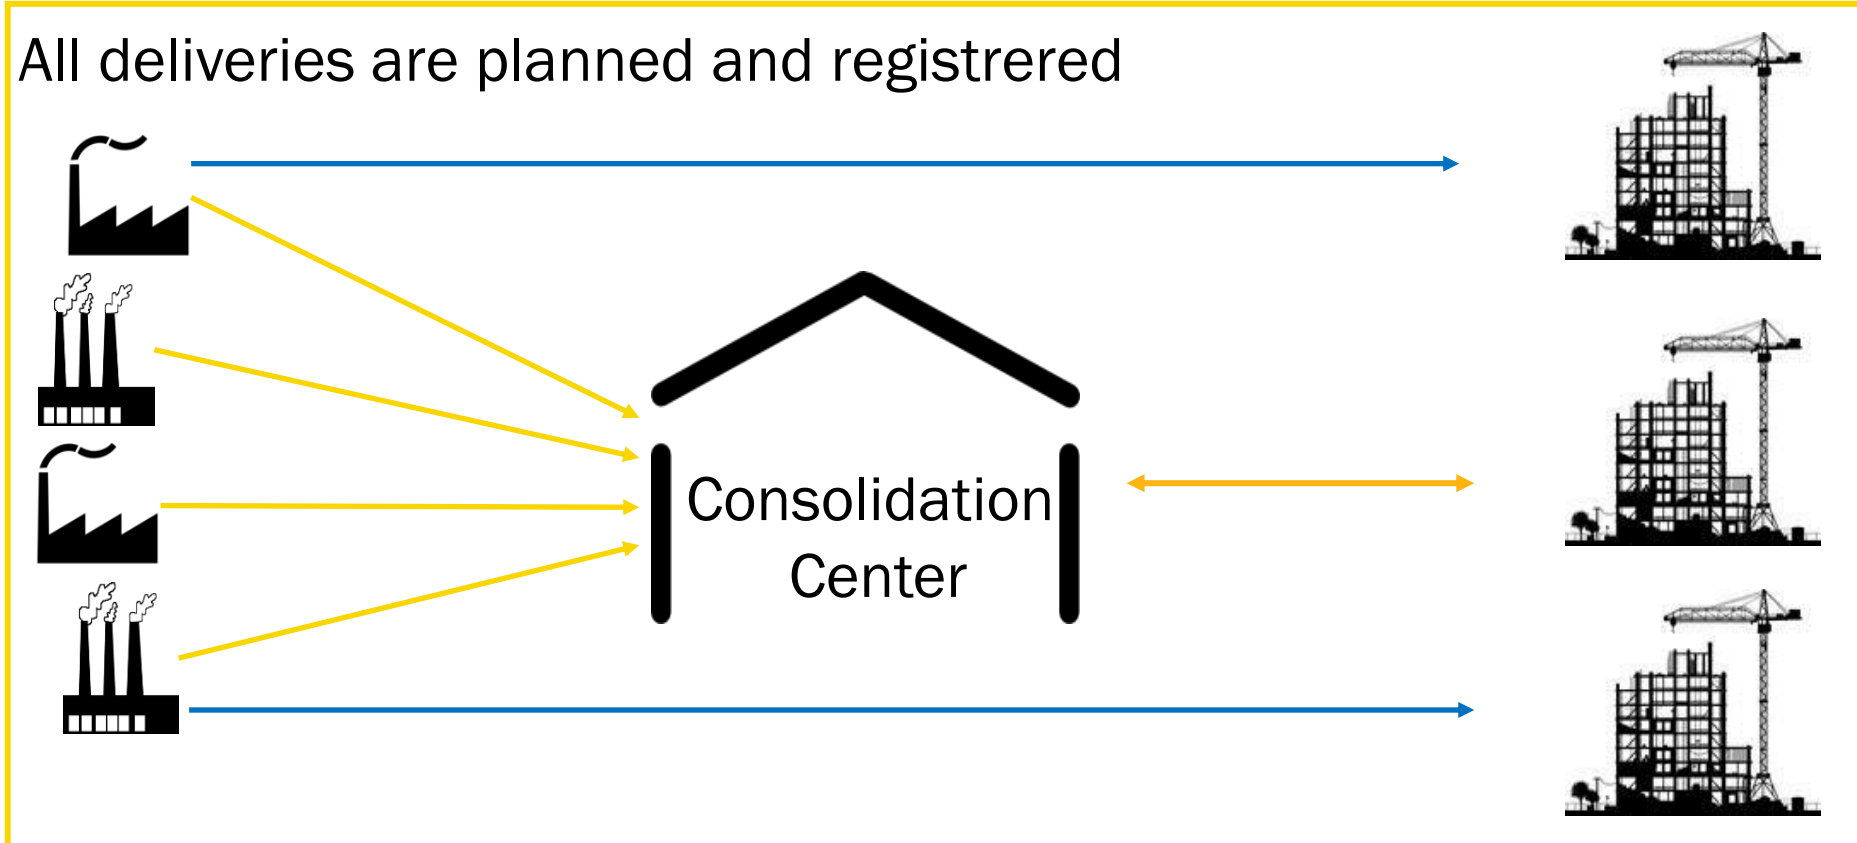

May 30, 2018

Mission: Establish a Construction Consolidation Centre

- Reduce urban road traffic
- Minimize and structure construction traffic
- Safety for workers and citizens
- Increased precision for deliveries – planning
- Lower impact on air, noise, water and climate

But – should a municipality play this role?

Let simplicity rule

What issues would gain on collective solutions?

Tools at your fingertips

- Public procurement
- Digitalisation and services
- Focus on function, quality and monitoring
- Agreement and fixed rate for developers
- Engage your organisation!

What are the tools to make planning and consolidation the new normal?

Input to your discussion

- Should a municipality play this role? Pros & cons
- What issues would gain on collective solutions?
- What are the tools to make planning and consolidation the new normal?

Thank you
