

# Engaging London's Business Community

Conrad Haigh  
Workplace Travel Planning Manager  
Smarter Travel Unit  
Transport for London

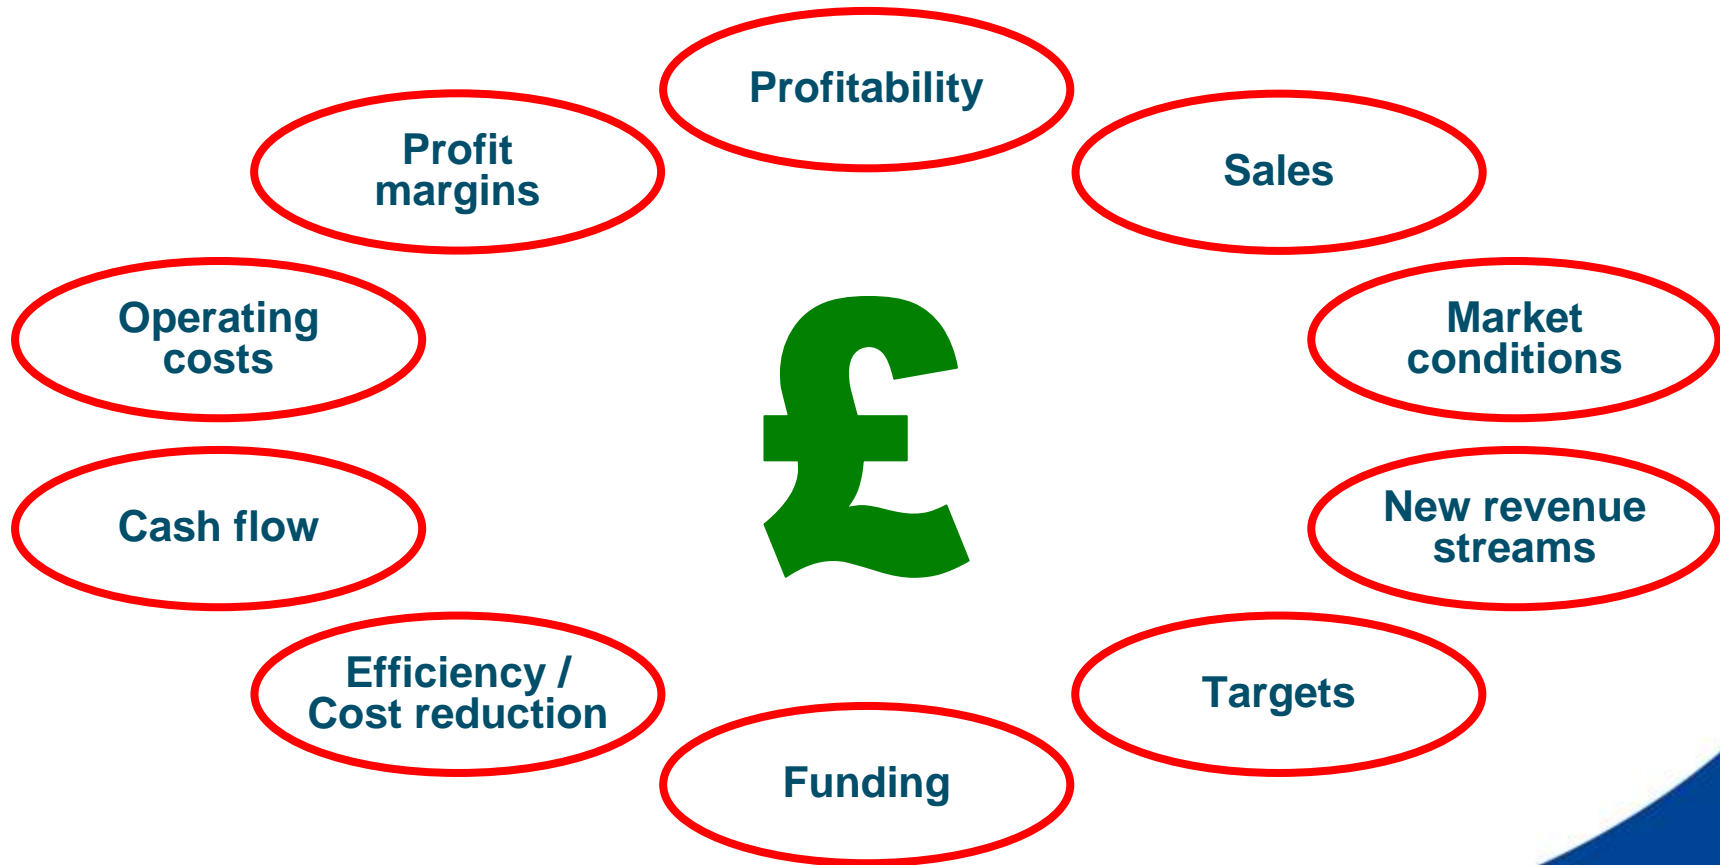

# Ramp up

---

- 2005/06 Workplace activity significantly ramped up
- Staffing levels increased from 1 to 5
- New programmes devised
- Budget increased from £1.2m to £5.5m per year
- Targets increased: 250,000 employee over two years

# Research - Business issues

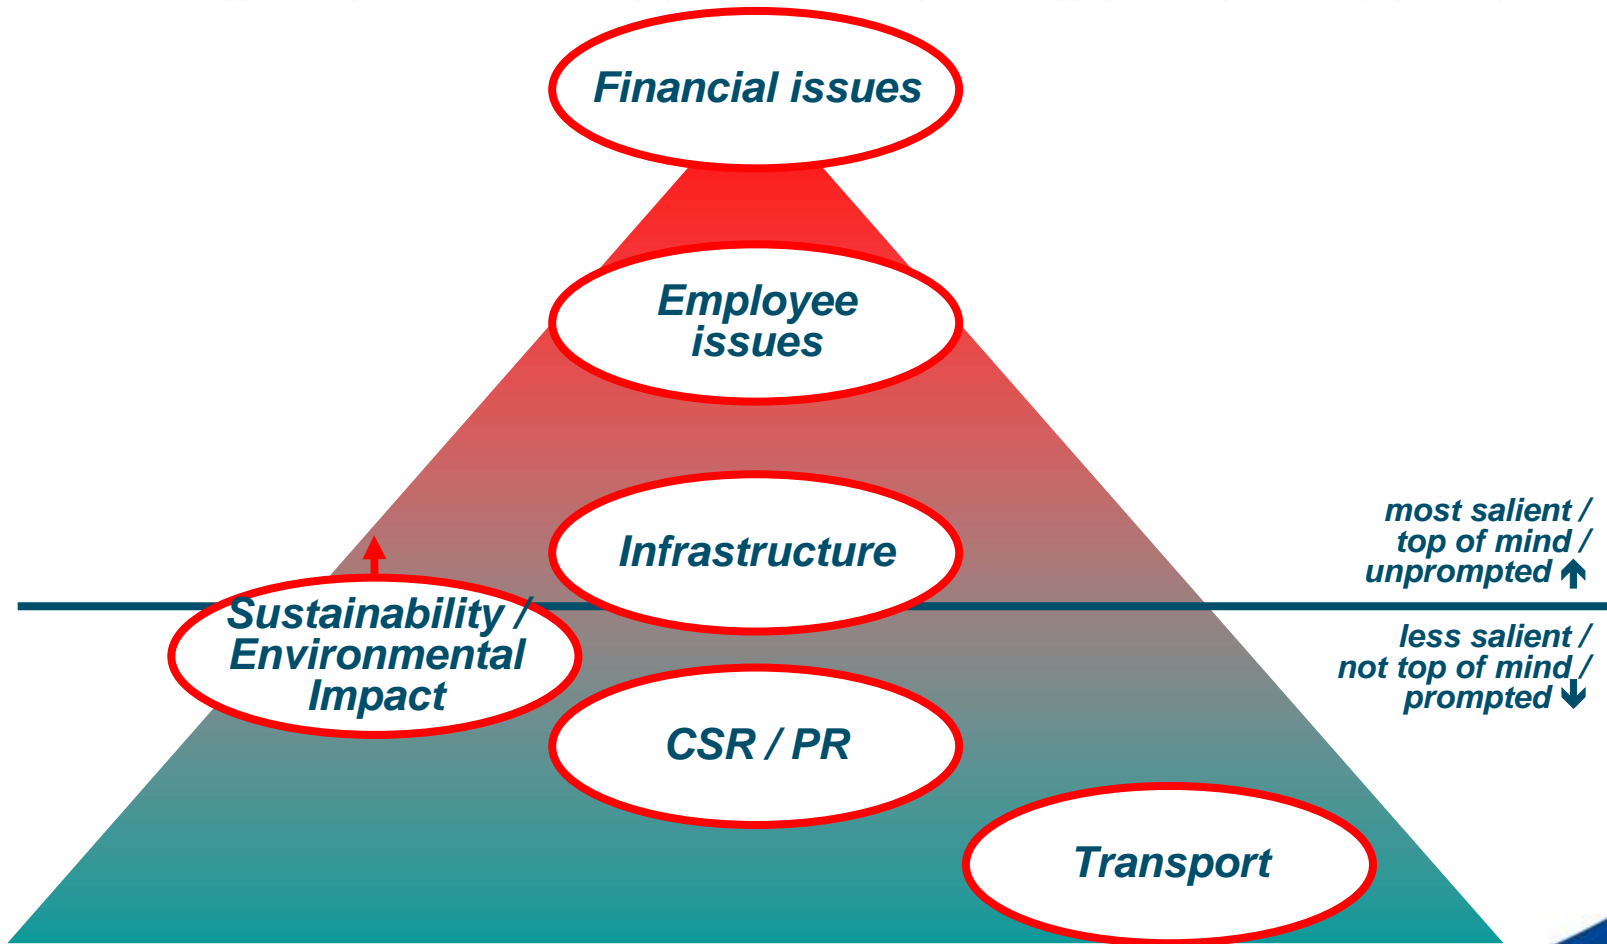

# Research - Business issues

---

- For all businesses, financial issues are the single biggest concern and driver of business decisions and strategy
- Financial issues have at least an indirect impact on all other business issues and considerations:

# Research - Business issues

# Other findings

---

- They dislike Cold Calling - but are always looking for ways to improve their organisations
- Peerism was important - what were other businesses doing?
- Sales - it was difficult to gain access to the right people in the organisation
- Product - lacked clarity and was not tangible and seemed a bit complicated

# No cold calling

---

- Trusted sources – **tapestry**
- Third part events and introductions

# Workplace Travel Plans

Helping business work

Efficiency.  
Corporate go.  
making

# Peerism

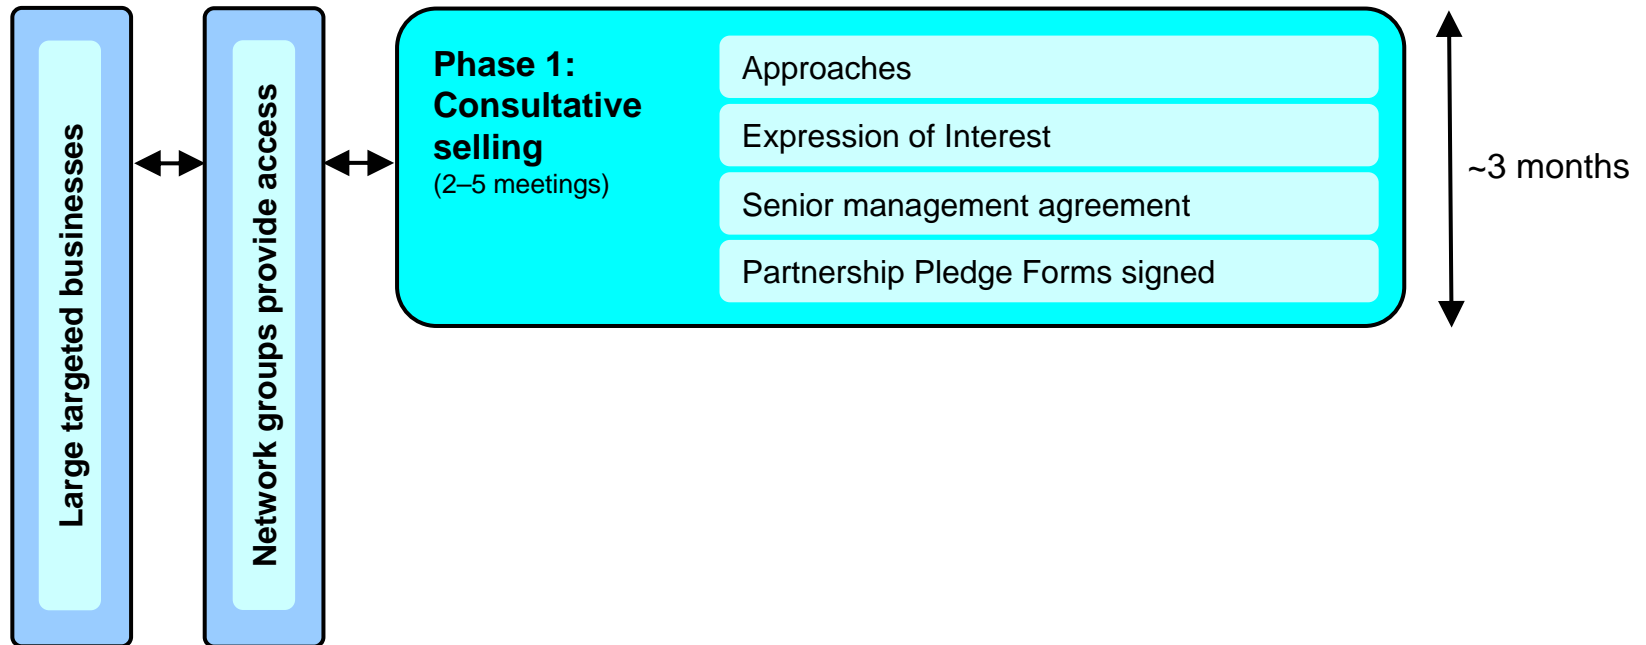

- Set up business networks:  
TMA's, Travel plan groups/networks
- Utilised existing groups such as Chamber of Commerce and the Strategic Health Authority
- We used existing partners such as London Business School, LDA, etc.
- We used recommendations, referrals from other businesses / organisations
- We go to conference and events – CSR etc.
- We shamelessly promote our existing clients!

# Sales process & programme overview

# Consultative selling

# Consultative selling

---

- Its about relating your product to your clients needs
- It involves a lot of active listening
- We only try and sell to the next level
- Very time consuming
- Very effective around 90% conversions

# Created tangible products

---

**Corporate**

250+ employees on the site

**enterprise**

20 to 250 employees on the site

# A New Way to Work: Corporate

# A New Way to Work: Enterprise

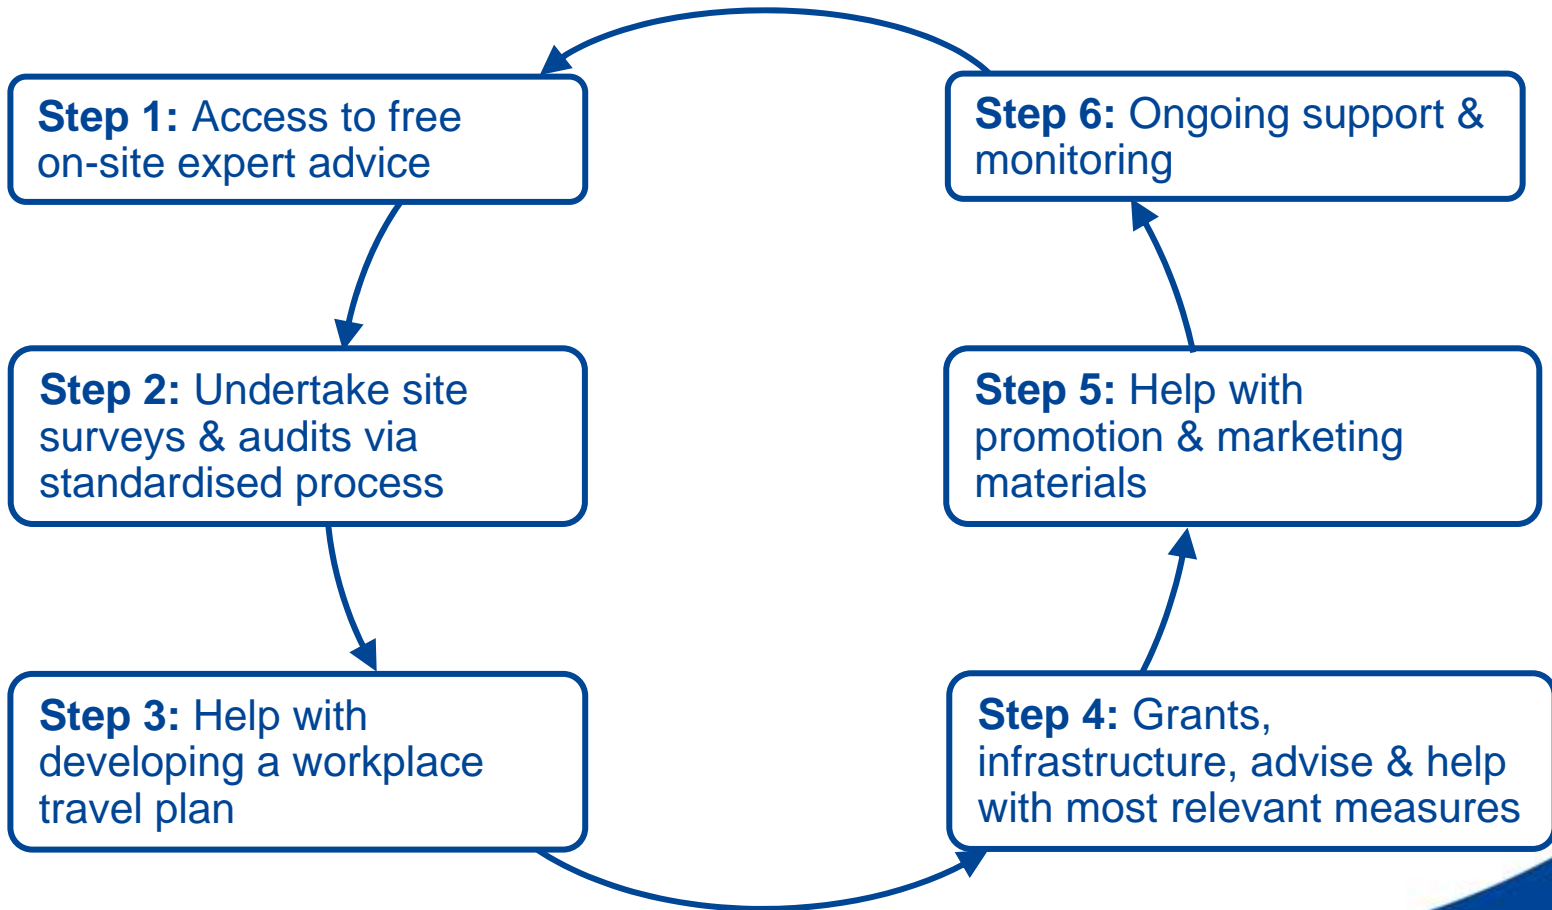

# Selling the business benefits

- Cost savings for the business
- A more attractive employer
- Becoming an employer of choice
- A healthier, more productive workforce
- More travel options for the business
- Achieve carbon reduction

# How the support is structured

# Standardised support packages

- Walking

- Cycling

- Public transport

- Car sharing

- Smarter working  
(flexible & remote working)

# Enterprise: support package example

## For cycling:

- Marketing materials
  - Posters

# Enterprise: support package example

## For cycling:

- Marketing materials

- Marketing materials
- Merchandise
- Measures
- Support & advice
- Workplace signs
  - Cycle parking
  - Showers
  - Lockers

# Progress to date (organisations)

# Progress to date (employees)

**Corporate organisations:**  
~456,000 employees

**Enterprise organisations:**  
~11,000 employees

# Results

---

- The business case for the Voluntary Programme presently stands at 4.1:1
- Overall in iTRACE:
  - At present around 1,400 workplace travel plans in London have been registered and are being tracked through iTRACE
  - iTRACE is showing an average 13% mode shift away from car journeys, based on repeat travel surveys at 18 organisations and a survey population of 10,000 employees
