

Fried Egg, Scrambled Egg, Fractal, City and Transport

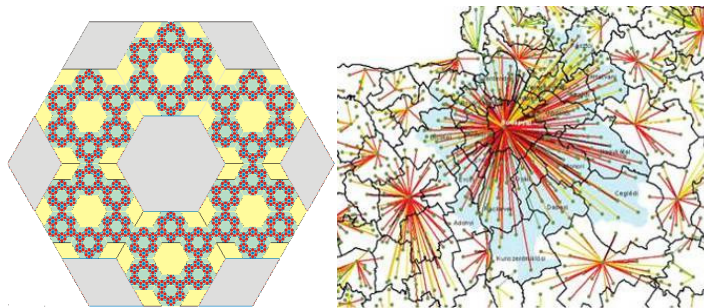

Slogan of Paris transport

Fried Egg, ancient Mexico City, Moscow, Brussels

Scrambled Egg, recent London, Boston, Mexico City

Model of fractal, and City with its satellite settlements

Different layers of a city: coach-, bus-, night bus-, bike path-, tube-, and street network (London)

Key factor for (European) development: DENSITY of knowledge, experience, possibilities, amenities, networks, hubs... ..and that is what we call: CITY!

We have to experience, understand, explain, promote, and **love the cities!**
